**Subject:** Complete Application Notification - Project No. 2016-05-030

Mr. Robert Harmon:

My name is Kasia Wasescha and I have been assigned Bemis Packaging, Inc.'s Operating Permit Application for a Part 70 Renewal. The project was received on May 11, 2016 and assigned Project Number 2016-05-030. Please use this Project Number when making inquiries about the project or when providing additional information. Your name was provided on the application as the company contact person. If this is incorrect, please contact me as soon as possible with the name, address, phone number, and e-mail address of the correct contact person. Your application was determined to be complete as of August 1, 2016.

I may need to request additional information as my review of the application progresses. In an effort to make our review process as streamlined as possible, we ask that you respond to requests for additional information within 15 days of receipt of the request. We do understand that some of the requested information may take longer than 15 days to supply. If this is the case, please submit a written request by e-mail or letter explaining the need for the extension. We will allow for a one time extension of 30 days. If a response is not received within the timeframes the application may be closed out, in which case a new application will need to be submitted.

You will be provided a copy of the draft permit for a 10 business day review period prior to posting of the draft for public notice; if public notice is not required, then you will be provided with a copy of the draft permit for a 10 business day review period prior to issuance. If there are questions or concerns, I will work with you to address those concerns.

The Air Pollution Control Program maintains a searchable web page for all pending permit applications received. You can see the entire list of current projects or search by county, city, or date received. You can click on the record number to see the status of your project. Currently, the report is updated once a month. <http://dnr.mo.gov/env/apcp/permits.htm>

If you have any questions, please do not hesitate to contact me by phone or e-mail. If I am unavailable, you may contact my supervisor, Michael Stansfield, at [michael.stansfield@dnr.mo.gov](mailto:michael.stansfield@dnr.mo.gov) or 573-526-3835.
